RISK FACTORS

Investing in the EDGE Al-Amin Shariah Consumer Fund involves certain risks that investors should carefully consider before investing in the Fund. Investment in the capital market and in the Fund bears certain risks including loss of principal amount invested. There can be no assurance that the Fund will achieve its mentioned investment objectives. The Fund value can be volatile and no assurance can be given that investors will receive the amount originally invested. When investing in the Fund, investors should carefully consider the risk factors outlined below, which are not necessarily exhaustive or mutually exclusive:

1. General: There is no guarantee that the Fund will be able to meet its investment objective. Unit-holders may incur absolute and relative losses, including loss of principal, when investing in the Fund. Mutual funds and securities investments are subject to market risks and no government agency or the sponsor/AMC is offering an objective investment performance guarantee, hereby. Investors should study this Offer Document carefully before investing. Due to the fluctuation of the price/ value/ interest rates of the securities in which Scheme invests, the value of investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.

2. External Risk Factor: Performance of the Fund is substantially dependent on the macro-economic situation and capital market as well as money market of Bangladesh and beyond. Political and social instabilities may have an adverse effect on the value of the Fund's assets. Adverse natural calamities may impact the performance of the Fund.

3. Market Risk: The Bangladesh capital market is highly volatile and mutual fund prices and prices of securities can fluctuate significantly from their respective fundamental value estimates, at times for prolonged period. The Fund may lose its value or incur a sizable loss on its investments due to such market volatility. Stock market trends indicate that prices of majority of all the listed securities move in unpredictable direction which may affect the value of the Fund. Furthermore, there is no guarantee that the market prices of the units of the Fund will fully reflect their underlying Net Asset Values.

4. Concentration Risk: Due to a limited number of high-quality listed securities in both the DSE and CSE, it may be difficult to invest the Fund's assets in a widely diversified portfolio of securities as and when required to do so. Additionally, due to the consumer sector orientation and flexible single-issuer exposure constraint, concentration risks for the Fund will be even higher. Very narrow and highly thinly traded Shariah-compliant bond market of the country has not been supporting the Asset Manager to design and implement optimum asset allocation decisions from time to time. Limited options in the money market instruments will narrow the opportunity of short term or temporary investments of the Fund which may adversely impact the returns.

5. Dividend Risk: Despite careful investment selection of companies in the Fund, if the securities fail to generate the expected income or dividend, or fail to disburse investment income, principal repayment or dividends declared in a timely manner that will impact the income and the overall return of the Fund.

6. Underlying Liquidity Risk: For investing in Pre-Public Offer Placement securities i.e. in the unlisted debt or equity securities by the Fund, may involve liquidity risk. In addition, market conditions and investment allocation may have an impact on the ability to sell securities during periods of market volatility. Debt securities, while somewhat less liquid, lack a well-developed secondary market, which may restrict the selling ability of the Fund, and may lead to the Fund incurring losses till the security is finally

sold. While securities listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Fund incurring losses till the security is finally sold.

7. Investment Strategy Risk: Since the Fund will be an actively managed investment portfolio; the Fund performance will remain subject to the investment management strategy risk. The AMC will undertake rigorous investment research and risk management exercise at all the time; however, there can be no guarantee that such process and techniques will produce the desired outcome. Due to the long-term fundamental analysis driven management style of the AMC, the Fund may drag performance relative to the market index/ benchmark in too weak or strong market conditions when market volatility is high.

8. Credit Risk: Since the Fund will seek to also invest as per the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১, in debt securities; the credit risk of issuers of such securities is also associated with the Fund. Investment in debt securities is subject to the risk of an issuer's inability to meet profit and principal payments on its obligations and market perception of the creditworthiness of the issuer.

9. Interest Rate Risk: The Fund will invest in Shariah-compliant debt securities only- hence interest rate risk may not be directly impacting performance of the Fund's performance. However, valuation of all the financial assets in the market is somehow tied to the general level of interest rates and its changes. Hence, value of the Fund might be impacted indirectly by the changes in the interest rates- even though such impact would be on the lower side compared to traditional mutual funds.

10. Issuer-specific Risk: In addition to market and price risk, value of an individual security can, in addition, be subject to factors unique or specific to the issuer, including but not limited to corporate governance risk, management malfeasance, accounting irregularities, unfavorable changes in management team or management strategy leading to corporate under-performance. Such risks can develop in an unpredictable way where corporate insiders have way more information in their custody than the public investors including the AMC. Hence such risks can only be partially mitigated by thorough research or due diligence. To the degree that the Fund is exposed to a security whose value declines due to issuer risk, the Fund's value may be impaired.

11. Unitholders' Liquidity Risk: Open-end mutual funds are exposed to market liquidity risks. Additionally, untimely significant redemption of Fund-units by exiting investors may add to overall level of liquidity risks for the Fund beside dragging performance.

Mutual funds do not guarantee any predetermined returns.

1.8 Systematic Investment Plan (SIP)

A Systematic Investment Plan or SIP is a smart and easier mode for investing money in mutual funds. SIP allows an investor to invest a certain pre-determined amount at a regular interval (monthly, quarterly, yearly etc.). A SIP is a planned approach towards investments and helps to inculcate the habit of saving and building wealth for the future.

Buy and Surrender SIP Process:

An investor can invest through SIP either by auto debit system provided against investor's Bank Account or by providing monthly predetermined cheques via selling agents at a regular interval (monthly, quarterly, yearly etc.). Investor must have a BO Account. Investor will get SIP units in their BO Accounts based on a discount from the latest/ongoing effective Weekly Sale price of the fund.

It is advisable to continue SIP investments with a long-term perspective, there is no compulsion. Investors can discontinue the plan at any time. If an investor wants to terminate the SIP before two (2) years, up to 1% discount from the repurchase/ surrender price will be applicable on total accumulated invested amount on the date of cancellation of the scheme. After maturity of SIP, the investor can easily surrender through AMC or Selling Agents.

Benefits may be offered for Investors as such:

SIP encourages a disciplined investment. While invested through SIP, investor commits himself to save regularly. Different benefits may be offered as follows:

- **Flexibility:** Investor can start SIP with a very small amount that is 1000/2000/3000/4000/5000 or multiple of 1000/500. One can also increase/ decrease the amount being to be invested in regular fashion.
- **Flexible SIP Tenor:** The scheme will be offered for at least 2 years or any other period set by AMC. However, investor can set SIP scheme for 3 years/ 5 years/ 10 years. After this time period the individual scheme will be matured and may surrender or continue holding the Units after maturity. If surrendered, no fees/charges will be charged on surrender and may also offer highest premium over the declared surrendered price.
- **No Minimum lot size:** Under SIP, there will be no minimum lot size as like normal investors. Based on a discount from declared sales price per unit available, units will be credited to investor's account. However, any fraction amount remaining will be converted when it sums up to one unit. The fractional amount will be kept as liability of the fund in a separate account head.
- **Sale at discount and premium at Surrender:** SIP investor may buy units at a discount from weekly Sales Price offered to normal investor. In addition to that SIP investor can surrender at a premium of repurchase price offered to normal unit holders at maturity as per SIP brochure.
- **CIP option for the SIP investors:** SIP investors can choose either option of cash dividend or cumulative investment plan (CIP) or mix of both. If a SIP investor chooses CIP (i.e Dividend reinvestment process) instead of cash dividend, they will also enjoy CIP units at a discount of prevailing Sales price used for CIP conversion. After CIP conversion, they will get dividend on total number of units in the next year.

Details of SIP Scheme will be provided in the Scheme Brochure in future.

CHAPTER 2: BACKGROUND

2.1 Preamble to Formation of EDGE Al-Amin Shariah Consumer Fund

Mutual fund is the most popular investment vehicle in the world. An asset management company (AMC) pools funds from individual and institutional investors under a mutual fund structure and then invest in different securities with varying risk-return profiles like stocks, debt securities and money market instruments etc. from that mutual fund to generate sustainable wealth for investors/ fund subscribers. An open-end mutual fund issues an “Unit” against the money received from a fund-investor who is interested to invest in the underlying securities but does not have the time and resources to undertake investment research or due-diligence activities. The asset manager of the mutual fund, with adequate professional credential and experience, undertakes the necessary investment research and management role on behalf of the investor. At any point in time, a fund-investor can surrender his/her “Unit” to the asset manager to cash-out the investment balance.

Mutual funds are very efficient risk-taking vehicle in the sense that they provide sufficient diversification benefit to investors even with smaller investable fund which is not available otherwise. By investing in an open-end mutual fund, the investors gain access to a thoroughly researched and professionally managed capital market portfolio without doing the hard-work themselves.

With more than 140 million Muslim population with rising income, higher propensity to save and expanding middle class, there is a significant demand for Shariah-compliant financial products. This is one of the key drivers behind higher market share of the Islami banks compared to the traditional ones. In the capital market of the country, most of the bigger, Shariah-compliant listed consumer companies have been outperforming the broader stock market in general as shown in the chart of our proprietary index below:

As private consumption represents 73% of country's GDP, consumer-oriented companies clearly benefitting from such tail-wind. Favorable demographics, urbanization and income growth are all driving better revenue growth, sustained profit margin and higher return on invested capital for these consumer companies- which, in turn, delivered better shareholders' returns as summarized in the financials of few selected companies from our research universe:

EDGE AMC Limited, a new generation asset management company founded by a group of investment professionals with strong credentials and track-record, is committed to deliver highest-quality investment management services to capital market investors in Bangladesh. EDGE Al-Amin Shariah Consumer Fund will be fourth fund managed by EDGE AMC Limited. The first fund – EDGE Bangladesh Mutual Fund – is a balanced fund which has AUM of about BDT 32.5 crore as on 19th May 2022 and generated about 10.6% annualized return since inception in August 2018. The second fund – EDGE AMC Growth Fund has AUM of about BDT 31.4 crore as on 19th May 2022 and generated about 13.5% return since inception in September 2019. The third fund – EDGE High Quality Income Fund with an AUM of BDT 24.2 crore as on 19th May 2022 generated 1.3% return since its inception in February 2022.

EDGE Al-Amin Shariah Consumer Fund will aim to maximize risk-adjusted return for Unitholders by investing in a portfolio of Shariah-compliant securities issued by the government/ related issuers, consumer oriented corporate entities and NGOs based in Bangladesh. The Fund will invest in Shariah compliant common and preferred equities, initial public offerings (IPO), quasi-equity securities, debt securities and Shariah-compliant money market instruments and deposits.

EDGE AMC Limited is the Sponsor and Asset Manager of the Fund. The other parties include Sandhani Life Insurance Company and BRAC Bank Limited being the Trustee and the Custodian of the Fund, respectively.

2.2 The Capital Market of Bangladesh

Bangladeshi stock market posted strong returns since 2000 as the economy kept growing at more than 6% p.a. with leading companies posting stronger earnings growth throughout the cycles. EDGE's proprietary data suggest that – even with a stock market crash in 2010-11, blue-chip stock composite outperformed other liquid asset-classes significantly since 2000. Strong corporate performance and a number of regulatory reforms implemented by the BSEC helped the country to grow the foreign portfolio investment (FPI) remarkably.

Participation of local institutional investors in the capital market of Bangladesh is not up-to the mark in comparison to peer countries. Pension funds and life insurance companies are hardly participating in the capital market of the country whereas banks' capital market exposures are closer to their limits. Under such circumstances, retail investors are the ones that are more active but, unfortunately with limited skill

and awareness necessary for investment success. Such market structure drives significant market inefficiencies and volatility. The concepts of professional investment management and investing in Mutual Funds are still in their early days in the country. Currently there are only 36 closed-end mutual funds and about 80 open-end mutual funds in Bangladesh and total AUM is approximately BDT 163.3bn as on May 5th 2022 (representing 3.0% of equity market capitalization), while in India Asset under Management is approximately BDT 42,200.1 bn as on Sep 2021 (representing 14.6% of market capitalization).

Mutual Funds will play a big role in institutionalizing the market-structure and distributing sweet-fruits of the capital market in Bangladesh. EDGE Al-Amin Shariah Consumer Fund is inspired by and aims to fit well into such strategic outlook.

2.3 Advantages of Investing in EDGE Al-Amin Shariah Consumer Fund

EDGE Al-Amin Shariah Consumer Fund offers following value-propositions to the potential investors:

- I. EDGE Al-Amin Shariah Consumer Fund is ambitious to be the highest integrity Shariah-compliant investment product available to the target investors by upholding Shariah rules and Unitholders' interest before any other consideration under all circumstances. Being CFA charter-holders, all three senior executives of EDGE AMC Limited will be adhering to CFA Institute's Code of Ethics and Standards of Professional Conduct in addition to the সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়াল ফান্ড) বিধিমালা, ২০০১, for protecting Unitholders' interest.
- II. Diversification contributes to optimize risk-return balance for the investors as it helps them not to put all the eggs in the same basket. EDGE Al-Amin Shariah Consumer Fund will be offering a value-oriented portfolio, reasonably diversified into different Shariah-compliant companies and securities, to generate respectable and compliant investment performance with high probability along the economic cycle and different market situations.
- III. EDGE Al-Amin Shariah Consumer Fund, through its diversified pool of Shariah-compliant investments, will provide small investors access to returns of the wider market, which may be very costly for retail investors to achieve individually.
- IV. EDGE Al-Amin Shariah Consumer Fund's performance will benefit from EDGE's strong proprietary investment research capability. Senior management executives of the AMC are well-trained in investment management with proven investment research and advisory track-record in Bangladesh for last 12 years. High-quality macro/industry/company databases, financial/ quantitative models and strong corporate access of the management team will generate unique perspective and insight for the Fund to deliver strong performance to its Unitholders.
- V. In Bangladesh, mutual funds enjoy a 5% (five percent) reserved quota for Initial Public Offerings (IPOs) under fixed pricing method. For IPOs coming under book-building process, Asset Managers with superior asset valuation skills can bid for significant allocation in IPOs from the mutual funds under management and maximize return for unitholders. IPOs in Bangladesh have historically posted much better time-weighted-returns to subscribers, especially in short-term, and therefore, Unitholders' access to the reserved IPO subscription quota through Mutual Fund investments offers value not available otherwise.
- VI. The investors will be able to save significantly in transaction costs as he/she will have access to a large number of securities by purchasing a single unit of the mutual fund.
- VII. Dividend income from the Fund will be tax-free for up to Taka 25,000 as permitted under the Finance Act.
- VIII. Investment in the Fund will qualify for investment tax credit in a range of 10-15% under section 44(2) of the Income Tax Ordinance 1984.
- IX. Management and operations of mutual funds are subject to strict regulations from the BSEC and the sponsor-appointed Trustee, both of whom closely monitor the performance of the fund. The laws governing mutual funds require exhaustive disclosure to the regulator and general public.

- X. The Fund shall distribute at least 70% of realized 'Annual Income'¹ of the Fund as dividend in Bangladeshi Taka or CIP (if requested by the investor)- only net of provisions in each accounting year. The CIP option allows the fund manager to reinvest the dividend in the prevailing investment opportunities.
- XI. Price of the Units of the fund won't be determined by demand and supply in the public market, rather by Net Asset Value (NAV). The AMC will be liable to repurchase the Units surrendered by the Unitholders on the basis of NAV which mitigates Unitholders' liquidation risk.

These value-propositions of the Fund are summarized in the following diagram:

¹ Before deriving the annual distributable income and declaring dividend, the Fund shall provide for future depreciation on investments and appropriate provision for bad and doubtful investments to the satisfaction of the Auditors and shall also create a sufficient Dividend Equalization Reserve by appropriation from the income of the Fund.

2.4 Tax Advantage of investing in EDGE Al-Amin Shariah Consumer Fund

2.4.1 Tax advantage on Income: Income from a mutual fund or a unit fund up to tk. 25,000.00 (Twenty-Five Thousand) is exempted from tax as per clause 22A of Schedule (Part A) under Income Tax Ordinance 1984.

2.4.2 Investment Tax credit: According to the current Income Tax Ordinance (ITO) 1984, section 44(2)(c), amended in 2016, amount of allowable investment is – actual investment or 25% of the total (taxable) income or BDT 15,000,000.00 whichever is less.

According to Section 44(2)(b) under Income Tax Ordinance 1984, the tax rebate rate is from 15% and 10% as per following schedule:

Total Income	Rate of Tax Rebate
Up to BDT 1,500,000.00	15% of eligible amount.
Above BDT 1,500,000.00	10% of eligible amount.

Example:

An individual earning total annual income BDT 6,800,000.00 (Sixty-Eight Lac) only in a year may have allowed investment for tax rebate BDT 1,700,000.00 (BDT 6,800,000.00 multiplied by 25% allowed).

As this amount BDT 1,700,000.00 is lower than BDT 15,000,000.00, the person's eligible amount for tax rebate is BDT 1,700,000.00.

The individual will have total tax rebate calculated as under:

a) 1 st BDT 1,500,000.00 of eligible amount at the rate of 15%	= 225,000.00
b) Next BDT 2,00,000.00 of eligible amount at the rate of 10%.	=20,000.00
Total rebate	=245,000.00

This investor can reduce tax liability by BDT 245,000.00 by investing in this fund.

This is a simple illustration. The amount can vary and will depend on individual circumstances. Also, please note that the tax rebates may change as per Government's decision in any year. Investors are advised to consult with tax advisor, if required.
